Teaching Evaluation Report

ECON 2102-20 Intermediate Macroeconomics | Jinxin Wu

Summer 2024

Overall Evaluations

Scale: low (1) to high (5).

Competency	Average	Standard deviation
How much did you learn in this course?	5.00	0.00
How likely would you be to recommend this course to others?	5.00	0.00
Overall evaluation of the course	5.00	0.00
Overall evaluation of the instructor	5.00	0.00

Course Design, Content, and Learning

Scale: strongly disagree (1) to strongly agree (5).

Competency	Average	Standard deviation
Learning goals were clearly articulated	5.00	0.00
Learning goals were met	5.00	0.00
Course content engaged me	5.00	0.00
Course introduced new perspectives/models/literature	5.00	0.00

Assignments and Grading

Scale: almost never (1) to almost always (5).

Competency	Average	Standard deviation
Covered what was taught in class	5.00	0.00
Were graded according to the standards set by the instructor	5.00	0.00
Were returned in the timeframe communicated by the instructor	5.00	0.00
Were integral in synthesizing course learning	5.00	0.00
Were returned with meaningful and specific feedback	4.50	0.71

Average Scores: The Instructor in This Course

Scale: almost never (1) to almost always (5).

Competency	Average	Standard deviation
Was well-organized	5.00	0.00
Delivered content in a manner that motivated me to learn	5.00	0.00
Provided opportunities to receive assistance outside of class	5.00	0.00
Was open and responsive to student feedback and concerns	5.00	0.00
Encouraged me to do my best work	5.00	0.00
Respected the start and end times of class	4.00	1.41

Summer 2024 – Written Student Feedback

Comments are reproduced as written and grouped by the headings used in the original evaluation report.

"Prof. Wu was great at answering questions and being available to meet for any necessary reasons. She is always willing to answer your question and is positive in class. Her lectures are very straightforward and she is clear about the expectations of the exam."

"I really appreciated Professor Wu's specificity about the course expectations, her exceptionally clear explanation of the concepts, and her willingness to provide us with extra help."

"Make sure the problem sets stay optional and we can go over them in class! Great for busy schedules"

"I would appreciate if the course also added in some homework assignments as part of our grade, but since this was a summer class, I understand that might've been difficult to implement."

"overlapped a lot with intermediate micro"

"I love that problem sets were optional for the course."

"The tests were given back to us in the timeframe Professor Wu said, but sometimes her feedback on them wasn't the most clear. It would have been helpful if her test feedback explained more about what we got wrong."

"You could always answer questions or ask questions in class which was great, lectures were not too fast paced also."

"I love professor Wu! She is the sweetest and always welcoming if you wanted to speak with her."

"Professor Wu is one of the best professors I've had at Georgetown. I came into the course expecting Intermediate Macro to be a rather difficult course, similarly to Intermediate Micro, but she was able to explain the concepts in a manner that I easily understood. She also was very warm and even brought pizza to the final review session."

"It's necessary to go over the material after class since the exams aren't open note, but it is not too bad."

Additional comments:

> *Hello Prof. Wu, ... so I just wanted to thank you again so much for taking the time to teach our class this summer! I really enjoyed it and I truly learned so much. I don't typically write thank you emails but I genuinely feel you were very clear and kind when teaching all of the econ principles and preparing us for the exam. You were also always so accommodating of each of us and I really appreciate it!...*

> *Dear Professor Wu, ... and I wanted to thank you for being such a clear and enjoyable professor this summer. This course is my favorite Economics class I've taken so far thanks to you...*
